

iLASIK™ at Piedmont Eye Center

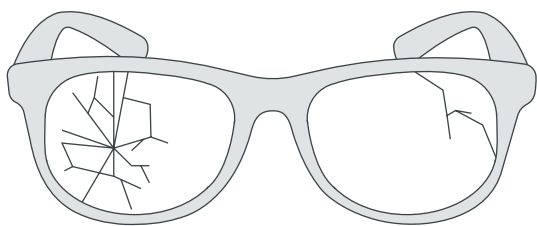

- 100% laser (blade-free) approach to custom LASIK treatment
- An average LASIK treatment takes only 20-60 seconds per eye.
- All iLASIK™ procedures are performed by Dr. Darin K. Bowers, one of the region's most experienced LASIK surgeons.

Reviews

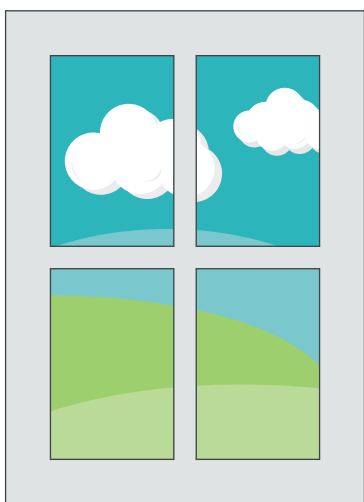

There has never been a time in my life when I did not have to wear glasses or contacts. For over 20 years I put up with irritations, foggy eyes and all of the other frustrations that came with contacts. I finally came to a point of desperation and made one of the best decisions of my life by having Dr. Bowers and his team perform PRK on me. Since the surgery I have had better vision than I ever have before and without all the headaches of contacts. The only regret I have is that I didn't have it done sooner. Thank you Piedmont Eye Center and Dr. Bowers for making it such a great experience!

I wore glasses for 23 years, and thought I would not be able to get away from them until I won my LASIK Surgery through Piedmont Eye Center. I didn't know how easy the process was going to be, but the people at Piedmont made it all very simple.

Before my (LASIK) surgery, I was unable to go without glasses or contacts because I saw nothing but a blur. I had a lot of eye irritation due to wearing contacts too long before taking them out. At dark, it was really hard to see, even with glasses or contacts. The evaluation process was quick and easy. After my surgery, it was like night and day. I could see clearly immediately. The doctor, not his staff, even called me the afternoon of my surgery to check on me!

After 25 years of dealing with breaking my expensive glasses or losing a contact while swimming and being half blind for the rest of the day, I decided it was time to make a change. I was ready for LASIK. Even living an hour and a half away there was no doubt that I wanted Dr. Bowers and his team to perform my surgery.

LASIK is not just a medical advancement to me; it's a miracle. Now, I wake up every day like I'm a kid again, with a child-like wonder at what I can see.
